QR Code Link to This Post A vehicle for sale has a few scratches. The vehicle has a dent in the front passenger front quarter panel, and several small dings on the driver's side rear passenger door. The front and rear suspension have been replaced all in the same year. It has 137,000 miles but runs well. There is some work which needs to be done: front driver's seatbelt lock needs to be replaced, front passenger window motor needs replaced, and rear driver's side wheel does not match the other three. Bose stereo system and sunroof work, leather interior; it has a V8 engine. Have invested close to \$4,000.00 in repairs to the vehicle and will supply them upon sale.

Any responses will be sent to my email so please provide a contact email and telephone.
