

photo assistant needed for a couple of corp location shoots in January (Boston)

Location **Massachusetts**
<https://www.genclassifieds.com/x-787188-z>

QR Code Link to This Post I'm a long time Boston area photographer and have a couple of different still photo location shoots in the pipeline for January, one is a single full-day in Burlington (MA) and the other is probably two full-days in Back Bay, and I need an assistant with some strobe-lighting experience to help with numerous set-ups per day... Specific dates are not yet set, though the Back Bay job is very likely happening on Jan 22, 23, and/or 24. But I'd like to get a sense of who's available.

Please send a brief description of your assisting skills and experience and dayrate for consideration. I will get back to you as soon as these jobs firm up...presumably during the week of Dec 18th...
