QR Code Link to This Post Looking for One or Two Creative Investors: Who wants to lend money to settle lawsuits by buying a house from a Defendant, probably at a very good price, and selling it back to me? I have two such lawsuits, one pending here in New Orleans, one in New Jersey (Jersey Shore, Mantoloking, Brick Township). The house in New Orleans (where I am living) is less than a block from Audubon Park. So no, although not "top of the market" this is definitely not "Section 8" Project housing. The house on the Jersey Shore in New Jersey needs some serious work---but it too is in a "top of the Market" location. I have a lawyer you could talk to if you're seriously interested. Don't be put off by the singing answering machine message. You have reached the right.
