QR Code Link to This Post TheRemedyRx is a free service that was started to help people find the name brand prescriptions they desperately need without the hefty price tags that come along with it. We shop around to thousands of TIPPS-Accredited pharmacies nationwide until we find the best price possible.

Our program benefits anyone taking expensive brand name medication, insured or not. However it's especially helpful for anyone currently trapped in the Medicare Part D Prescription "Donut Hole".

For examples on how much TheRemedyRx can save you, please see the pictured flyer. Some people have saved a thousand dollars on just a 30-day supply. This service can truly be a life saver.

For free quotes please feel free to call, email, or text message us using the contact information included in our flyer. A member from our customer support team will be in touch with you ASAP.

We look forward to hearing from you!

Look us up online!
