QR Code Link to This Post I require someone who can work part-time to help me clean out rentals. The job is not that complicated because places to clean are not too filthy with me aiding on the nights or weekends only. All supplies will be given for you, just be present and work.

State your name and phone number along with your estimated earnings. Also tell me a bit about yourself and why I need to employ you. You will acquire your payment in cash every single day.

Thank.
