QR Code Link to This Post So i'm going to be as "un-formal" in this post as I can so hopefully you reading this can tell that I am being as open, honest and transparent as I can be so you know that this isn't fake or some scam and that you wouldn't be wasting your time.

I would say this gig would pay you roughly \$500/week if you worked this about 10-12 hours a week, no boss!!

I have been working this roughly 40 hours a week and making anywhere between \$1,200-1,600/week, but on my own schedule, no boss!!

Just keep reading, I know it's long, but you will be happy you did.

This is about driving for Lyft/Uber. If you've thought about it, or haven't, i would seriously recommend it. And I would be willing to mentor you on how to make as much money from them as possible. I am not some ambassador for them, I don't get paid to promote this for them. So now you skeptics are wondering, "Why is he posting this then, what's this guy trying to get from me?"

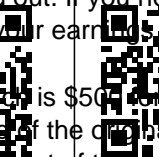

I've been driving for them since March of 2016, I started out with it as a side gig, and then recently took it full time. And it's been making me great money to provide for my wife and I and our own place.

When I drove for them part time, I would make about \$400-600/week, working sometimes 5, sometimes 14 hours a week. But now I drive for them full time, anywhere between 25 - 40 hours a week. The least i made at 25 hours a week was \$900 and the most i've made was \$1,640 in a week when I logged 40 hours. Now granted I spend about \$100-150/week in gas, so if you add that expense up, it's still really good take home money.

More than likely you've heard of Lyft or Uber, if not, google it and you'll find out. If you need great part time money, or want to take it full time from hearing about my results, read on. I would be happy to "mentor" you on how to make your own earnings. Why? My own transparency. I don't use money on bonus, which is \$500 for sign and me. Meaning I will get paid when I'm being paid. I'm not for nothing extra wiring you because I want that money. One of the only ways you can get anything. So our first goal will be to get extra money. If that makes you feel better, yes I would be getting something out of this, but I'd actually be willing to give you all of my tips, become in a way a business partner and teach you everything of what I have learned along the way. And seriously it can make really good money.

So if you want more information on this and what it would take, or more information on me so you can get to know me, I'm just a very ambitious family man chasing a dream. I will leave my number below and you can call me or text at any time.

If you don't want my help, and just want the \$500 sign on bonus, well i'll leave that link and code below as well so you can just get started with them immediately and get
