QR Code Link to This Post I have an o4 Mini Cooper S model 6 speed manual
the body is in fair condition there is some gnarly bubbling at the rear driver side tail light as you can see in the photo and the hood has taken some road debris. It had the goofy white race stripes on it and in my attempt to remove them they pulled up clear coat...
interior is great everything works aside from the passenger side window switch it goes down but is not easy to get to return. Just needs a new switch.
I put new tires on last year so not many miles on them
Car is super fun to drive gets amazing mileage
