QR Code Link to This Post Bought from original owner truck is all original down to motocraft sparkplugs. 80,000 original miles and is an automatic 2wd. New Goodyear Wranglers with rubber nipples still on the tires. It has a 302 Windsor V8 small block the same engine used in mustangs. I broke the glovebox but Barry's has one. Id also like to say i purchased this vehicle for resale about a few weeks ago and left town for a remodel right afterwards. The original owner clearly cared for it but i think it should be given basic maintenance I've changed oil but thats about it. No leaks runs fine. I am selling immediately. Original title in.
