QR Code Link to This Post This is a 1994 mustang cobra that runs and drives great. This car is very fast, heat and a/c works. It has the mustang billet wheels and almost new tires. I also have a set of chrome cobra wheels that are in one of the pictures, they just need a front tire replaced. It has the 5.0 in it, the person I bought from gave me a list of upgrades, but I can't verify. I know it has a set of Edelbrock aluminum heads with roller rockers on it. I am asking 4500, no trades. Please call me at for more details. I have a 1998 cobra rear bumper and hood i will include for the right.
