QR Code Link to This Post This is the TOP of the line Equal-i-zer BRAND Sway Control Hitch for trailers up to 1000 lbs of tongue weight and 10,000 lbs overall. This hitch has been used on a few times and comes complete with the shank and the ball. It has the rigid brackets instead of the chains so it provides better weight distribution and is much easier to hook up. It also has built in sway control so you don't have to put on a friction sway control and you can even back up without having to disconnect anything. This hitch usually sell for over \$750.00 new, so you can save over a bunch if you don't mind a few scratches on the steel.

This hitch can be seen at Wilson's RV Repair at 4520 S. Federal Way in Boise. You can also call with any questions. Installation is available at an additional.
