QR Code Link to This Post I am a very experienced guitarist, composing, touring and recording. I have recorded over 45 albums, and remain active as guitarist/singer/songwriter with Boston's Mission of Burma and my newer band, Trinary System.

Listed at #2 in "9 Absolutely Essential Post-Punk Guitarists", the Tone Report, May 2017.

"Mr. Miller can summon up three decades of guitar sounds." N.Y.Times

This is ONLY for SKYPE lessons. I have found that SKYPE lessons work very well and are not a hindrance to getting ideas across.

Beginners through Advanced.
Weekly basis or a one-time session to open potential.

I am very interested in helping musicians of all ages - I have coached a 6-years old into writing - write songs, create riffs, whatever their interest.

While most of my notoriety stems from the post-punk era, I studied composition at California Institute of the Arts and enjoy playing blues. I have played piano all my life. I am currently keyboardist/composer in The Alloy Orchestra, a three-piece silent film accompanying ensemble that tours film festivals all over the US performing our scores to classic silents like "Metropolis", "Nosferatu", and lesser known classics. We have many DVD releases to our name. I am also a regular soundtrack composer: in 2008, 2009, 2011 and 2017 I scored a film which premiered at the Sundance Film Festival.
