QR Code Link to This Post This is a Hyundai Imagequest L70N 17" Flat panel Computer Monitor complete in original packaging with VGA and power cables. The plastic tabs holding in one of the small plastic cover pieces on the back of the stand neck broke, but you can tape or glue it into place if you like.

Here's a rundown of specs found via an online search. It's a pretty lightweight monitor and good for locations where wider ones won't fit.
