QR Code Link to This Post I've owned this Air Conditioner for several years. It is well maintained, as it was kept indoor during the winter month. In the summers, I did not use it very often simply to save on electricity plus I do not like the feel of air conditioner cool air on my body.

As seen in the picture, it is used. I am looking to trade it for baby stuffs (mini dish-washer, car seat, baby swing, bassinet, highchair, walker, crib, changing table, baby carrier, never-used clothes, diapers, etc).

From the Manufacturer: Uses 3 cooling speeds plus Fan-only setting to provide maximum comfort. Four-Way air flow lets you direct the cool air where you want it most. Slide-out chassis makes installation, removal, and servicing a snap. Features 8,000 BTU with a 9.0.
