QR Code Link to This Post 12'x20' concrete monolithic slab. Need form, pour and decent bull float finish. 6-8" thick honch with 3-4" thick floor, need anchor straps, wire and fiber mesh. I can supply all concrete and wire or bid including materials (4 yards of concrete). 1-9" garage door and one pass door. Right at end of paved driveway. Slab will need to be 1" less than overall dimensions. Ready to go. Send.
