QR Code Link to This Post What is it: WEN Pets Cleansing Conditioner brings the high performance, quality, and amazing results you'd expect from a WEN product to your pets. This non-lathering, creamy formula leaves your pets with the rich, warm scent of maple from a plant Chaz encountered on his daily hikes with Hunter, Spencer, and Ella.

Who is it for: The universal formula is designed to be used on all breeds of dogs, cats, and even horses.

Why is it different: WEN Pets is packed with essential oils, extracts, amino acids, vitamins, nutrients, and peptides. It eliminates the use of harsh detergents and chemicals, leaving your pet's coat silky, shiny, and beautiful. Treat the four-legged members of your household with the love they deserve by giving them a smooth, shiny, polished, and hydrated coat.

How do I use it: WEN Pets is a concentrated formula, so you'll use the provided mixing bottle to dilute the product and create a rich foam to cleanse your pet with. Fill the empty bottle to the appropriate line, then fill to the appropriate line with water.

For small pets (up to 25 lbs), fill the mixing bottle to the 2-oz mark with WEN Pets, then add 3 oz of water to the bottle, and shake thoroughly to mix.

For medium-sized pets (25-50 lbs), fill the mixing bottle to the 4-oz mark with WEN Pets, then add 6 oz of water, and shake thoroughly to mix.

For large pets (50-100 lbs), fill the mixing bottle to the 6-oz mark with WEN Pets, then fill with water close to top of the bottle, leaving just enough room so you can shake thoroughly to mix.

Rinse your pet's coat thoroughly and completely until soaking wet. Apply WEN Pets to your pet's coat until it is thoroughly saturated. Add a splash of water and vigorously massage. Leave for 30 to five minutes. Then rinse thoroughly and completely several times until the foam is completely rinsed out.

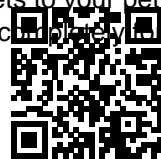

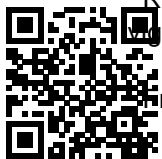

from WEN Pets, Inc. Dear
