QR Code Link to This Post Hi everybody, I'm Dakota Haze and I'd like to team up with some like-minded, easy going, totally cool vegan / vegetarian musicians, to form my Magical Psychedelic Dream Band.

Would you love to turn your hobby of playing music into a profession by joining a JAM BAND and touring constantly?

Does your musical tastes lean towards the Grateful Dead, Pink Floyd, Dave Matthews Band, as well as experimental music and improvisational jazz?

Are you in your late 40s to mid 50s?

Do you live in (or near) the Alton / Wood River area?

If you answered YES to these questions, then this MIGHT be the group you've been looking for!

However, please know that I'd like to remain completely original. No covers... with an emphasis on being a jam band; let's just get together and see what happens. You know, let the magic flow, totally improvisational and spontaneous.

Everybody that applies will be considered regardless of your instrument, male or female, race, or sexual preference!

Anyone interested? If so, reach out to me. Hopefully we can get going after the New Year. Let's rock!
