QR Code Link to This Post Siberian Huskies to good homes.

Mocha is my sisters girl, she is having to rehome her because they can't keep her in their fence(she doesn't jump she goes under) Mocha is GREAT with kids and other dogs. NOT good with cats or chickens. She is a inside dog and is house trained, kennel trained and leash trained. She is purebred and CKC registerable. She is red and white with two blue eyes. She is spayed, utd on shots, microchipped, utd on monthly dewormings and flea tick and heartworm prevention. Great on car rides, loves long hikes/walks. Full of energy and love! She did get hit by a car as a pup and had to have one of her back legs amputated but don't let that fool you she is not weak and is a typical husky for sure! My sister is asking \$350 to cover some.of her vetting but may negotiate price some.

Alcides is my boy. I had bought him to be my next stud dog but he can not be bred he only has one testicle and that's genetic and can pass down. He is utd on shots, utd on dewormings, microchipped and utd on flea tick and heartworm prevention. He is not fixed yet (I have a date set up but our vet couldn't get him.in until January) he is AKC registered and I'm.willing to show his AKC papers BUT I won't give his papers until I receive proof that he was fixed! He is PET ONLY. He needs to be the only male preferably. He is great with female dogs and my fixed male but my other non fixed male and him don't get along at all. He is GREAT with kids! House trained kennel trained and leash trained. Loves car rides and hikes. LOVES to play in water! He is red and white dirty face with two blue eyes. I'm asking 500 for him I paid more but I had bought full rights and he must be pet only.

Both are VERY healthy dogs!

Willing to deliver to Arkansas, Missouri, Oklahoma and Texas
