QR Code Link to This Post Why would anyone pay \$800. (original retail price) for a pair of speaker stands? Monitor audio designed them to provide a rock-solid platform for their flagship Studio Monitor speakers. The speakers rest on a 8 inch X 9 inch steel plate supported by 3 steel pillars filled with lead shot. Height (with spikes): 26 inches; weight: 46 lbs each. The ultimate overkill. Respond by email or phone

. Speak slowly and clearly if you leave a.
