Rubicon Express trackbar & frame brace (new joint) JCR sliders Comp-cut rear

NO STEREO HEAD UNIT, ROOF HALO, OR WINCH. Speakers work great, just no head unit

I'm sure there's lots more, I've built this rig from the ground up over the past 3-4 years and have done or seen every bit of work done on it. This thing performs flawlessly on the trail, will drive you home and to work the next day. I daily drove this rig every day until recently and will do 80mph on the freeway in a straight line no problem. This thing is in great condition for being 24 years old and wheeled hard. One good scrape on the passenger side from Liberty, but that's about it except for the typical NW pin stripe scratches.

CLEAN TITLE IN HAND NO TRADES SERIOUS BUYERS ONLY

Text is best to reach me, I have a newborn at home and typically will not answer numbers I don't know Collin
