

My husband and I are seeking a live-in nanny to join our household in North Quincy to care for our 11-month old son 20 hours per week on Monday and Wednesday 8am - 6pm starting as soon as possible. This is a permanent /long-term position. Some flexibility with which two days may be available but not for a few months

The focus of our sustainable lifestyle is through eating healthy, mostly vegetarian meals that are sourced locally and are organic whenever possible. We belong to a local CSA and receive fresh vegetables directly from a local farm every week for most of the year. We recycle, compost our food and reduce our waste and use of resources (water, electricity, heat etc.) whenever possible.

We also value a healthy and active lifestyle that brings us outdoors all year around. The gym, yoga, walking etc. are a daily part of our lives all 4 seasons. We also very much believe that one's mindset has an impact our health and wellbeing and actively cultivate our health and/or healing through a combination of a growth/positive mindset, clean eating and exercise.

It is important to us that the live-in nanny values these qualities as well and is actively cultivating them in their life. We are anticipating that the nanny will be part of the family and share meals together at least once per week.

The nanny should have some child-care experience preferably from infancy to pre-school period and must be mature, responsible, adaptable, show initiative and is easy to work with. We also seek a nanny who is optimistic, open-minded and willing to learn and support our attachment style approach to parenting.

The care duties for our son include: bath meal prep, feeding, changing, cloth diapers, laundry, bathing, naps, and indoor play as well as daily walking/playing outdoors. Additional responsibilities include: infant housekeeping, i.e. managing laundry loads, doing dishes and sweeper, street mopping, etc.

Our home is in a quaint neighborhood of North Quincy 50 yards from the ocean and is accessible via public transportation (bus and T).

Compensation: Full room & full board plus a \$50/week personal food stipend. The room & board is a small 1 bedroom apartment with kitchenette and bathroom and includes utilities, laundry access, and food. There is no salary other than the room, board and stipend. The food and meal prep will be communally shared in the home and a \$50/week food stipend will be provided to cover any additional food the nanny may desire individually. The apartment has a kitchenette or light meal prep but the nanny will have access to the main kitchen for additional cooking.
