QR Code Link to This Post Looking for someone to call on occasionally that can repair diesel engines specifically the 7.3 liter ford that we have in a 2000 f350. Also, if you can do other repair work on it such as front end steering etc.. Need work on the front end now.

Someone that can repair/ maintain small commercial equipment is needed as well. We have an old 743 bobcat and a small mini excavator as well as commercial mowers that need attention periodically. The bobcat needs some work now with some linkages/ muffler replacement and maybe a few other small things.

Need to be able to do mobile repairs on occasion as well.

Tell me your background and where your shop/garage is located and don't forget to leave your number. Will pay cash by the job. Thanks
