QR Code Link to This Post I am going through a divorce with my wife. She took half of the expenses on the house so now it's tough to keep up. Rent would be 500/month or split it bi-weekly or whatever. House is totally furnished besides the open room. I have 3 cats and 2 bearded dragons at the moment, but am looking to relocate them. I would prefer a female to fill the spot, but will rent to most. 1 bathroom. 2 bedroom house. With 2 living rooms and a separated 2 stall.
