- ~ High-Efficiency Air Filters
- ~ Humidifiers
- ~ Water Heaters
- ~ Attic Fans and Turbines
- ~ Air Purifiers
- ~ Electrical
- ~ Plumbing
- ~ Customized sheet metal fabrication

WAYS YOU CAN SAVE ON ENERGY EXPENSES

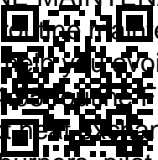

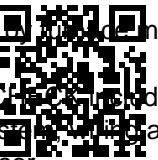

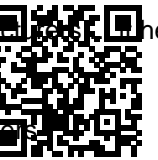

- * Install a high-efficiency furnace (95% or greater) and save up to 30% in gas consumption for heating.
- * If your current AC unit is 10+ years old, upgrade to a high-efficiency unit and save 18-30% of your electricity usage for cooling.
- * Add an attic fan or turbine to reduce attic heat and keep your home cooler, using less energy.
- * Change your furnace's air filter frequently.
- * Have your furnace maintained regularly by a professional (see Clean/Check below)

ROUTINE MAINTENANCE FOR FURNACES

Annual tune ups and safety check-ups are recommended by most manufacturers to help ensure that your furnace continues to operate safely and efficiently. We can help you avoid costly repairs and breakdowns. The \$74.95 FURNACE CLEAN AND CHECK service includes: inspection, burner adjustment, gas valve safety check, and filter change. We also clean burners, pilot assembly and flame sensor.

test for presence of carbon monoxide
 test operation of thermostat
 additional product/labor fees would apply if replacing parts, filters, etc.

We proudly celebrate our 39th year serving the Cleveland metro area, with over 39 years experience in the field. Let us be your quality experts...to schedule your tune-up, repair or free installation estimate, call to a
