QR Code Link to This Post Hello, my name is William and we are "We Can Do That". I am an experienced HDTV TV installer / General Handyman in the INDIANAPOLIS area with over 10 years of direct experience. In addition, I am veteran of the US Coast Guard, where I served for 10 years as a Port Security Specialist. While enlisted, I worked part-time as a TV / Home Entertainment installer for a national electronics company.

No job is too big or small. I can mount any TV you have. Drywall, plaster, brick, concrete, etc. Rates are extremely reasonable and affordable and will include labor and all hardware including the TV mount itself if needed. Prices will vary depending on type of mount and install you want but again, all rates are very reasonable. I offer a free estimate and in most cases, can provide this over the phone by simply asking a few quick questions. My customers typically tell me I provided them with the most reasonable quote they receive. We strive for customer satisfaction and to provide a quality service at a reasonable price.

Services include: basic wall mounting with wires and cables visible (I will guarantee the lowest price of anyone on these installs), hidden cables and wires for a cleaner appearance, home entertainment installs in and on wall, surround sound installs, fireplace installs, and brick wall installs. I have never seen a TV that I cannot mount. Examples and pictures of my work below.

I provide a written guarantee on all my services, as well as any item that I provide during the install. You can rest assured that you are being given the highest level of service and professionalism from an honorably discharged US Military Serviceman. I can provide numbers of previous customers that have given permission for me to do so. Some of my jobs include: apartment complexes, restaurants, salons, sports bars, and of course residential clients.

Other services that we offer are:

Ceiling Fan Installs

Unwanted Items / Junk / Debris Removal

Interior Cleaning and Mosaic Wash
Various other odd jobs, call to inquire. We are open to helping anyone we can.

My contact info is . Thank you for your time and
