We ARE the original "On The Wall TV" installers
I AM MIKE

Anyone can mount a TV. However, finding a technician who can do the job right & offer professional service with great customer service is the real issue. I have been rated A as a 5 STAR installer because of my customer service skills & professionalism, background checked & cleared by US government for installation as well.

Even a handyman can mount a TV, as well as SOME of the others advertising on this CI section.

Even a hand, that can read it, will, as well as some of the others advertising on it. The questions that is being asked the most is in regards to the price being offered.

The others that are posting here will tell you a lower price & then charge you more for surprises during or after the install is completed. They want to get a foot in the door so that they can get first try at UP-SELLING your install.

Also, we have prices for those who already have their own bracket and or wires for installation, we offer a lifetime warranty on all our labor and installations.
