

POSITION DESCRIPTION: I am someone who is interested in working in a traditional home based family care position, in my own quiet home setting. I interact directly with one person who is often making good use of their time in a flexible way. I am the adult in the home and I deal with unexpected changes without getting overwhelmed depending on how my health is doing on any given day. Multitasking is essential along with honesty and open communication. Since I require assistance with all daily activities of daily living with two main exceptions I can transfer myself and use the bathroom with no issues. (All private / personal hygiene taken care of by my husband) You will be responsible to help me be as independent as possible for as long as possible. I am acutely aware that your care will literally improve the quality of my life.

REQUIREMENTS:
 a€ Assistance positioning commode electric wheelchair so I can transfer myself safely
