QR Code Link to This Post I am currently living in this unit, and will be moving at the end of December. If it were not for moving out of state I would be staying right here for a long time, because I love this apartment. It's right in front of the complex on the first floor.

I told management I would help them find a tenant for January. You would be starting a new lease for less than what I currently pay. The apartment has a really nice view, and a very open feeling. The living room and master bedroom are large, and the bathroom has two sinks. The apartment stays cool in the summer. I only used the air conditioner one time this year. I have loved living here!

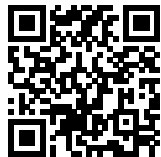

The indoor photo was taken right after I moved in, summer 2016. The photo of the view from patio was taken May of this year. You also have a view of the pool from this apartment. I planted parsley, basil, tarragon, and chard in the garden area of my patio this year. The floor plan can be seen on the Barrington Estates website: <https://www.barringtonestatesapts.com>

Barrington Estates contact number on the above reply button. Lylene is the office manager. If you would like any more information from me, you can text or call me at (eight-0-five) eight-eight-three - eight-nine-seven.
