Fast growing international marketing company needs advertising and marketing reps, smart college students, social media experts, salespeople and others who are looking for a change, hungry to make money and looking for a serious new opportunity to join a great new company with an exciting new wireless marketing device..

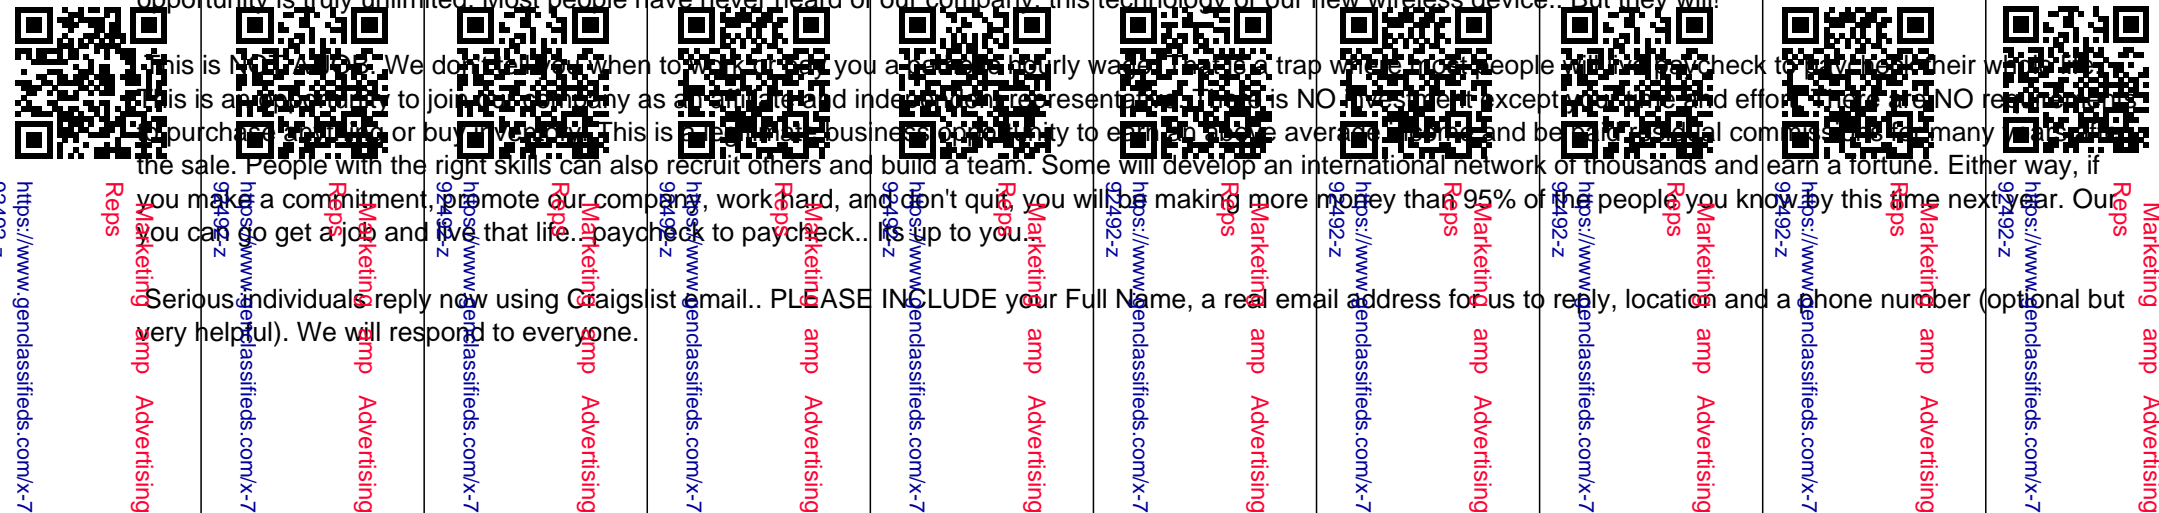

We need outgoing people for sales, marketing and promotion of our company and our amazing new wireless device. We need enthusiastic students to share this on campus and share with friends/students at other locations for a nationwide and international network marketing campaign. We also need people with sales and marketing experience for promoting this directly to local businesses. Aggressive salespeople can easily earn \$1k+ weekly to start and build a customer base that pays \$5k+ in residuals every month! Online sales are also big in our company and various social media networks are a great place to offer this device. If you have big #'s of followers on FB or LinkedIn they could be a huge revenue source for you. Earnings potential is only limited by you, your effort, creativity, time and contacts..

Our wireless device has many useful applications in business and for personal use. We confidently call it "The most affordable new advertising device anywhere". We have a massive un-tapped international market of over 1 billion prospective users, yes billion!! Our company was officially launched just a few months ago. Most people have never heard of our company, this technology or our new wireless device.. But they will!
