QR Code Link to This Post There are a few people around here who offer both services, but I can't seem to come to terms with them. Thought I would try this. Small apartment, easy to clean, about an hour per visit -- once a week? 1 hour massage while you're here. Not necessary to be a licensed massage therapist. You do have to be good at cleaning. I have had the best results with young women between 18 & 26, so please be that. Send your phone number if you want a text or call. Put "Clean & Massage" in the subject.
