QR Code Link to This Post I am a photographer and I am interested in shooting some fine art nudes. I also want to be up front and say that I am a man, am quite serious about this, and am not looking for sex. Please accept my apology in advance if you were offended by me posting here. I am simply looking for women who are artistically oriented and are comfortable with their sexuality.

I am very open in terms of your age and look, because I feel like there are beautiful aspects to every body - no matter how much you are certain that your body is imperfect.. I am mostly interested in classic black & white, classy artistic images -- i.e., no porn, degrading things. A lot of my images treat the body like a landscape. If you like, it is easy enough to exclude your face from the image - just like I did in most of these images -and still make amazing art-.

In the most basic sense, I like to use light and shadow to emphasize the curves of a woman's body. I think I often end up with some beautiful studies in tone and curve that can be very abstract and amazingly sensual. In terms of actually actual shooting, I am interested in some fixed poses as well as some images where you would be moving slowly, (i.e. dancing ) as I work with the light that spills across your body.

Because we would be doing work with you in the nude, you feeling comfortable is very important to me. I'd prefer it if our first meeting was just for coffee, so there is no expectations to make you more nervous. In the end, the relationship of the photographer and the model comes through in the final images, so if we don't genuinely feel comfortable with each other, this just won't work. In the end, this is something that I really enjoy doing and hope you will too.

The work would only be for personal enjoyment/display and would not be published on the internet. I'll also have a contract ready for both of us to sign that clearly spells out this fact. I am also happy to give you the images when I am done working on them in photoshop. If you would like to use these images for your own enjoyment or display, great. If you need them to enhance your portfolio, know that I don't watermark or copyright the images. They are all yours to do with as you chose.

So, if this sounds interesting, I hope you'll get back to me and we can explore this idea further.

Also, the QR code in this ad is for me and I have a page to show you what I do to.

Table with 10 columns, each containing a QR code, the text 'Fine Art Nudes this posting', and the text 'hide unhide'.
