QR Code Link to This Post This is a fully equipped family hauling, grocery getting soccer mom ride, that even dad would drive. It has the 3400 v-6 motor and 4 speed transmission. The interior is loaded with options like,front and rear climate controls, power windows, power locks, power mirrors, dual power seats, OnStar (if you choose to activate it), drop down DVD player, AM/FM CD, 4 captains chairs, 1 bench seat, front driver & passenger heated seats, power sliding rear doors and plenty of space. The exterior has privacy glass, driving lights, day time running lights, and alloy wheels.
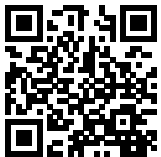

With all these features, and more, this is a steal at $1495.00. You'll fall in love with how comfortable and easy it is to drive, and how (if you're like me) quickly you forget you are driving a mini van. It has plenty of acceleration when needed, rides beautiful, and handles well in all types of weather and driving conditions.

If this is something you'd like to see and drive, text me at . I work a lot, and I can't always answer my phone, but if you do text me, I will return all messages in the order they were received. Thanks for.
