QR Code Link to This Post Very clean Dodge Ram 2500 with the spacious mega cab option. Has 108,xxx miles on it but will go up as I drive it some. I bought it back in NC to move out last February. Pulled a 20' enclosed trailer out with it but never did any real heavy pulling. I'm selling only because I don't drive it enough to justify owning this big of a truck and would like to get something smaller. Before it was in NC it was a Texas truck so its a super clean vehicle. New Hercules tires with about 4-5k miles on them now. It has the rack on the bed for a 5th wheel hitch and has a tow package. Has air bags although one has a leak in it. Exhaust brake that works really well. Put a new set of weather-tech mats in it. Truck is stock except for a cold air intake. Good truck with low miles and pre-emissions so good to go. This truck is just broke in!

Has new front ball bearings, u-joints, tires, steering box, and rear drive line u-joints. This is a great truck and ready to!
