QR Code Link to This Post New! Recording Classes starting in 2018 at the Boise Hive
Learn the basics of recording using three different software platforms: Logic Pro X, Pro Tools, and Audacity. Hands-on projects and invaluable networking experience with Audio Educator Brenda Francis of Idaho Sound.
Classes begin January 10th and April 11th for eight Wednesdays 2-4pm

Follow the path of a production engineer from beginning to end in a studio environment at your own pace. Learn how to best mic everything from drums and guitar to off the wall instruments like harp. Then expand on that concept behind the desk with in depth mixing tutorials covering compression, reverb, EQ, etc. Finally learn the mastering and post production steps and how to use a light hand to get great final results.

The course is 8 weeks long and led by The Hive's Audio Educator, Brenda Francis.

LEARN RECORDING EQUIPMENT

Discover all the tools necessary for recording a good demo, what kind of cables to use, microphones, and an introduction to the recording software.

SOUND FREQUENCIES & AMPLITUDE

Learn the specifics of what happens when you record and how to get the most out of your recordings with in-depth technical know-how.

RECORDING, MIXING & MASTERING

Record your own song or a friend's band and learn the specifics of mixing and mastering.

PRESENT YOUR WORK

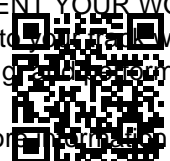

Post your work on our website with professional constructive feedback. When you post your work on our website you will be able to see all the comments, likes, and shares.
