Jo Jo, or Joe was her companion. He is more friendly toward females than males, even if the guy has good intentions. Joe has only been around women, so he has some anxiety around men. Please be someone that loves birds, and has plans on keeping him safe. Cockatiels need the temperature around 69 degrees with no draft. I have kept him safe for over a week, and when I am not home, I play 8 hr YouTube bird nature songs off of my Kindle with no drainage of battery life if I keep it plugged in. Joe loves this. I think he would benefit having a parakeet friend in his cage with him. He does not really like to be left alone. If you have an open concept home this would be perfect, as he likes to be able to see his person. His owner says that Joe is around 4 yrs old, but she has told me that for the past 4 years. He is beautiful. He loves to be held, and petted. There is no fee for him, he just needs a permanent home with someone who has bird history, and.
