

Brand New Heatherstone 42 Fire Table

Location **North Carolina**
<https://www.genclassifieds.com/x-793657-z>

QR Code Link to This Post I have a brand new 42" fire table that I bought to sell. There's nothing wrong with it except a small gash in the side which is pictured. Basically it was slightly damaged during transport and they couldn't sell it in the store but it works perfectly as you'd expect. Works off of propane.

Retail is anywhere between \$320 and \$550 but I'm only asking .
