- gives PERMANENT tax breaks to huge corporations but only a hopeless demwit can believe a lie like that, because like locusts ,liberals never really go away, so dont worry nothing is PERMANENT
- at least 13 MILLION more Americans were added to the ranks of the uninsured since the implementation of Obamacare that does nothing to improve healthcare., it only mandates that everyone has to buy it whether they can afford it or not
- Medicare and Medicaid was nearly bankrupted because Obama diverted 13 Billion of those funds to pay for the pensions of the unions excluded from the mandates
- INCREASED health care premiums on average of 50% due to coverage mandates
- DEVASTATED many homeowners who lost jobs due to employer mandates that blew an ENORMOUS hole in the economy that was already collapsing due to unproven environmental claims of man made climate change by so-called scientists like Algore and Barry Bigears who wanted to sell foreign made windmills and solar panels
- so why dont you give America a break and give up the hate so we can make America great again
