QR Code Link to This Post I am accepting quotes/bids to remove these 2 pine trees from my front yard. We have resisted this since we moved here 22+ years ago, we are tired of the sleepless stormy nights, and then the clean-up after. I have have some tree company's work on them few years back...(a lot of the branches have been removed), but now it is time for them to come down. I did have quotes to take them down back then and the prices ranged from reasonable to outrageous. You must have proof of insurance. As long as this posting is up I am accepting quotes.
This is re-posted due to communication issues (or lack of), with a local.
