 I believe it's a 2007/2008
 55cm (before they went to 52, 54, 56 sizing)
 Not many miles as I am more of a mountain biker. Bought it new around 2010 or so. I upgraded every part to this bike.

Frame is very mint. Just dirty in these pics and I have some clear protective tape here and there. But nothing chipped, scratched, dented. Paint is very nice with a sparkle to it. Never scratched, turned upside down, leaned on rough walls, etc.

A Quest Elite is \$1,800 MSRP. I think my asking price is reasonable because this built is better than a current Quest Elite.

- Mavic Ksyrium Elite wheels, bladed spokes (can be tubeless with proper kit)
- Easton EC70 carbon fork
- 2x10 drivetrain
- Ultegra shifters (carbon levers)
- 50T 172.5m Sram Force carbon cranks
- 11-25 ultegra cassette
- Ultegra front der
- Dura Ace rear der
- Dura Ace brakes
- Ultegra chain
