QR Code Link to This Post 631 Reynolds Steel (ride is smooth, just a lovely all day endurance road bike)

I believe it's a 2007/2008

55cm (before they went to 52, 54, 56 sizing)

Not many miles as I am more of a mountain biker. Bought it new around 2010 or so. I upgraded every part to this bike.

Frame is very mint. Just dirty in these pics and I have some clear protective tape here and there. But nothing chipped, scratched, dented. Paint is very nice with a sparkle to it. Never scratched, turned upside down, leaned on rough walls, etc.

A Quest Elite is \$1,800 MSRP. I think my asking price is reasonable because this built is better than a current Quest Elite.

Mavic Ksyrium Elite wheels, bladed spokes (can be tubeless with proper kit)

Easton EC70 carbon fork

2x10 drivetrain

Ultegra shifters (carbon levers)

50T 172.5m Sram Force carbon cranks

11-25 ultegra cassette

Ultegra front der

Dura Ace rear der

Dura Ace brakes

Ultegra chain
