QR Code Link to This Post I will be adding more items to this list as I find them in my storage boxes and as I have time to take pictures of them, andb then list them on Craigs List.

Send me a message if you want me to show you the other railroad and train items that I have listed on ads in Craigslist right now.

If the item is still pictured in this ad, then it is still available.

All of the items pictured are detailed and priced below

I will also be posting separate ads for HO Trains, Diecast and Other Vehicles, Railroad Books, Railroad Magazines and Other Railroad Collectibles, as I un-pack them from my storage boxes, and as I have time to take pictures of them.

If you are interested in a particular railroad, just let me know which one(s), and I will let you know if I find anything that I think you might be interested in.

Send me a message for a detailed description of the condition of any item that you are interested in.

Additional pictures are available upon request.
