QR Code Link to This Post I have a male dog. Not fixed. I'm not posting his breed. But his breed is from Belgium. A small Belgian breed of dog that originated in the early 16th century. He's 100% full blood and capable of being registered. I just never cared to do so myself. He's 7 months old. His name is Benny. He's good with cats and other dogs. He's a great mouser. Been raised with kids two and up. Having to re-home do to last minute living situations. Asking re-homing fee. Of \$250.00 Please text.
