QR Code Link to This Post Looking for someone I can trust to liquidate a very large estate that collected tools and various antiques. Need to live close so preferably a Wewoka resident. Must have an ebay account and know how to use it. Also open to ideas to sell all this stuff. I need it gone ASAP so the sooner the better. It's going to take awhile because there is several buildings full of stuff and you will get a percentage of each item sold.

Depending on sale price. Must sale with Ebay so I can keep record. Auction format is fine there is a lot to sale.
