QR Code Link to This Post We are a female fronted 90's tribute act. We play the songs you would expect plus a great many forgotten gems and one hit wonders. The goal of the band is to be for the 90's what groups like The Legwarmers and The Regan Years are to the 80's. Looking for someone who can handle the lion's share of the solos. Some backup vocals would be lovely. Preferable late 30's/early 40's. Must be willing to rehearse once a week until sets are learned, and twice a month thereafter. Please don't be insane.

Email some stuff about you and I'll respond with the same and some.
