QR Code Link to This Post HOT WATER EXTRACTION ((STEAM CLEANING)) GIVES YOUR CARPET THE DEEPEST CLEANING RESULTS

Just as you use hot water and detergent to clean your laundry, the same is needed to dissolve and breakdown dirt, food, beverages, that have embedded in your carpet fibers.

Hot water extraction (aka steam cleaning) is the most effective carpet cleaning method, for removing the greatest percentage of soiling.

We use a powerful truck mounted steam cleaning machine for maximum cleaning and minimum drying times.

WE DO TILE AND GROUT!!
