QR Code Link to This Post Pendleton Land Management offers Forestry Mulching, Land Clearing, Stump Grinding, Grapple and Bucket Work, Tree Work, Selective Clearing, Logging Clean up, Right Of Ways, and much more. Forestry mulching is an environmentally friendly way of clearing property. The unwanted brush, trees and over growth are mulched, leaving a layer of compost on the ground. Over time the debris degrades providing rich nutrients and minerals for the soil. There is very little ground disturbance and no unsightly piles to burn or look at rotting for years. Fully Insured and licensed and veteran owned. Visa/MasterCard accepted like us on Facebook
