Affordable Tree Service - Pruning, Trimming, Storm Tree Removal

Nothing can quite compare with healthy mature trees that stand majestically in our residential and municipal communities, increase our property values by as much as 20 percent, lower our cooling costs, and provide food for wildlife.

We know and appreciate their value because of firsthand experiences as a professional owner-contractor offering affordable tree pruning service, trimming and storm-related removal services.

We serve homeowners and local businesses with essential services including, but not limited to:

Removal of trees including remote or hard-to-reach areas

Emergency removals of fallen or dangerous trees

Trimming and pruning including areas that pose a dangerous risk

Stump removal

Stump grinding service for removal of unsightly and unsafe stumps

Emergency clean up services following storms, high winds and accidents

Our experience includes expert tree climbing for large or small projects. 1/2 As a precautionary measure we advise inexperienced property owners of the dangers associated with do-it-yourself trimming, pruning and removal.

Call Five Star Tree Service today for a level of experience and expertise you can trust
