QR Code Link to This Post I know everyone thinks EPS is a scam. BUT not the way I've been teaching it. They got me by putting "get paid per email" etc. I realized I had been scammed and I'm not flipping it around! I have created HONEST ads, emails, headliners and eye catchers. I also will create you a website for FREE because I'm not trying to milk you for every penny. EPS originally is what? A scam that teaches you how to scam others.

BUT they taught me very valuable skills for that \$25. And basically what I'm selling/what you'd be getting is a free website, marketing skills, my HONEST ads, emails, headlines, my help, and the ability to teach others how to create websites and marketing which is how you'd make money. People appreciate honesty and there's a big market for teaching other people these.
