The 2 glass stall showers for yrs have mold and she expects for you to plug in her air humidifier extra \$\$\$ on your electricity bill .

The fence yard is a partial fenced yard with broken wood and all her fences are scattered all over -Its not safe for your pets not even your kids .

The owner has a mice/rat infestation ,she calls a rodent company whos local in westerly but through out the yr in 2017 -23 mice/sm rats have been caught in the cellar and through out the kitchen and living room ,two weeks ago they caught 5 ,The handyman sprays a orange foam thinking it will block for mice not to come thru ,the whole house has sprayed orange foam around the foundation it looks cheap and useless.They will show you the house and cover up the wood pieces that have huge holes next to the front entrance which faces church st .Stay away do not believe the westerly real estate company or the owner ,
