This is a clean used pedestal style arcade cabinet used to play golden tee golf, power putt, silver strike bowling, bags and other games by Incredible Technologies. You use your own large lcd type monitor and mount it to the wall or tv stand and place this pedestal cabinet in front so you can play your favorite games on a very large screen TV. You can also used this cabinet to make a multicade multi game cade arcade or make it into a mame machine so you can play thousands of games in a real arcade cabinet. This is an empty cabinet. It has NO monitor, NO game boards, or computer. It does have a coin door, control panel, Happ 3 inch used trackball, back door and more.

It has a nice large wood control panel so you have plenty of room to add joysticks, buttons, spinners or any type of controller you want. Cabinet is also large enough to hold your computer and keyboard and game boards.

good condition. bottom left front corner is broken.
