QR Code Link to This Post This 2001 4WD Ford Ranger XLT is in good condition and runs well. It has 189k on the odometer but I replaced the engine a few thousand miles ago with the same type of engine that has only 81k miles on it. A picture of the receipt for the new engine is included in the pictures and we also have a copy on hand with the car. The exterior is in mostly good condition with the exception of a few spots on the passenger side where the clear coat has come off and there are some scratches and stains on the inside the truck bed and on the bed liner, but there are no major mechanical errors. It is a good looking and well maintained truck that needs a new home! I just upgraded cars so that's why I'm looking to sell. Please call (or e-mail if you can't call) for inquiries.!
